This presentation is intended for information purposes only and does not constitute an offer to sell or a solicitation to buy securities. No securities regulatory authority or regulator has assessed the merits of the information here in or reviewed the information contained herein.

This presentation is not intended to assist you in making any investment decision regarding the purchase of securities. Rather, the Trust has prepared an Offering Memorandum for delivery to prospective investors that describes certain terms, conditions and risks of the investment and certain rights that you may have. You should review the Offering Memorandum with your professional adviser(s) before making any investment decision. This presentation and the accompanying Offering Memorandum are intended for delivery only to, and participation in the investment is restricted to, investors to whom certain prospectus exemptions apply, as described in the Offering Memorandum.

"Agriculture is our wisest activity because it will ultimately contribute to wealth, good morals and happiness"

Thomas Jefferson

Technology serving agriculture

AGROTECH Ventures Inc. promotes investment in new technologies for the benefit of agriculture.

Through its investments, AGROTECH Ventures Inc. will benefit from direct and indirect exposure to the global agriculture, food and beverage industry that will also include the hemp and marijuana industry.

Mission et vision

AGROTECH Ventures Inc.'s mission is to offer the best technological alternatives for the benefit of agriculture. Innovation and sustainability are the watchwords of the company.

Our vision is to become one of the world leaders in technological agriculture and to offer future generations reliable solutions that respect the environment.

Targeted projects

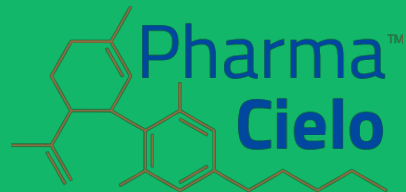

AGROTECH Ventures Inc. is comprised of innovative exempt market products distributed by Cape Cove Financial Management

REIVA 

Gravity Injection Growing

Eureka **93**

Ingenuity. From the ground up.

Pharma Cielo™

EQUILIBRE LIQUIDE - LIQUID EQUILIBRIUM
KOMBUCHA

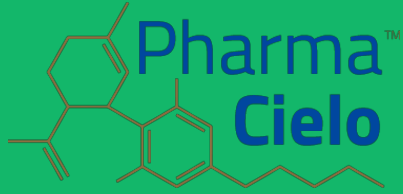

GREEN CBD

Beet, a well kept secret!

The beet is full of nitrates that in contact with saliva turn into nitric oxide (NO), a molecule that acts as a vasodilator facilitating the rapid transport of oxygen to all muscles and the brain. Reiva uses beetroot in all these products to offer healthy food supplements.

Reiva products are all natural and functional, without additives and do not contain caffeine, unlike the energy products sold on the market.

High quality Cannabis oils, produced under the best conditions in the world

Pharma Cielo is the first company to hold Colombian cannabis licenses with no restrictions on the percentages of tetrahydrocannabinol (THC) and cannabidiol (CBD), making them the largest licensed producer in the world.

Their medicinal-grade oil extracts and their products provide reliable, standardized formulas for patients in need, including those requiring higher THC levels.

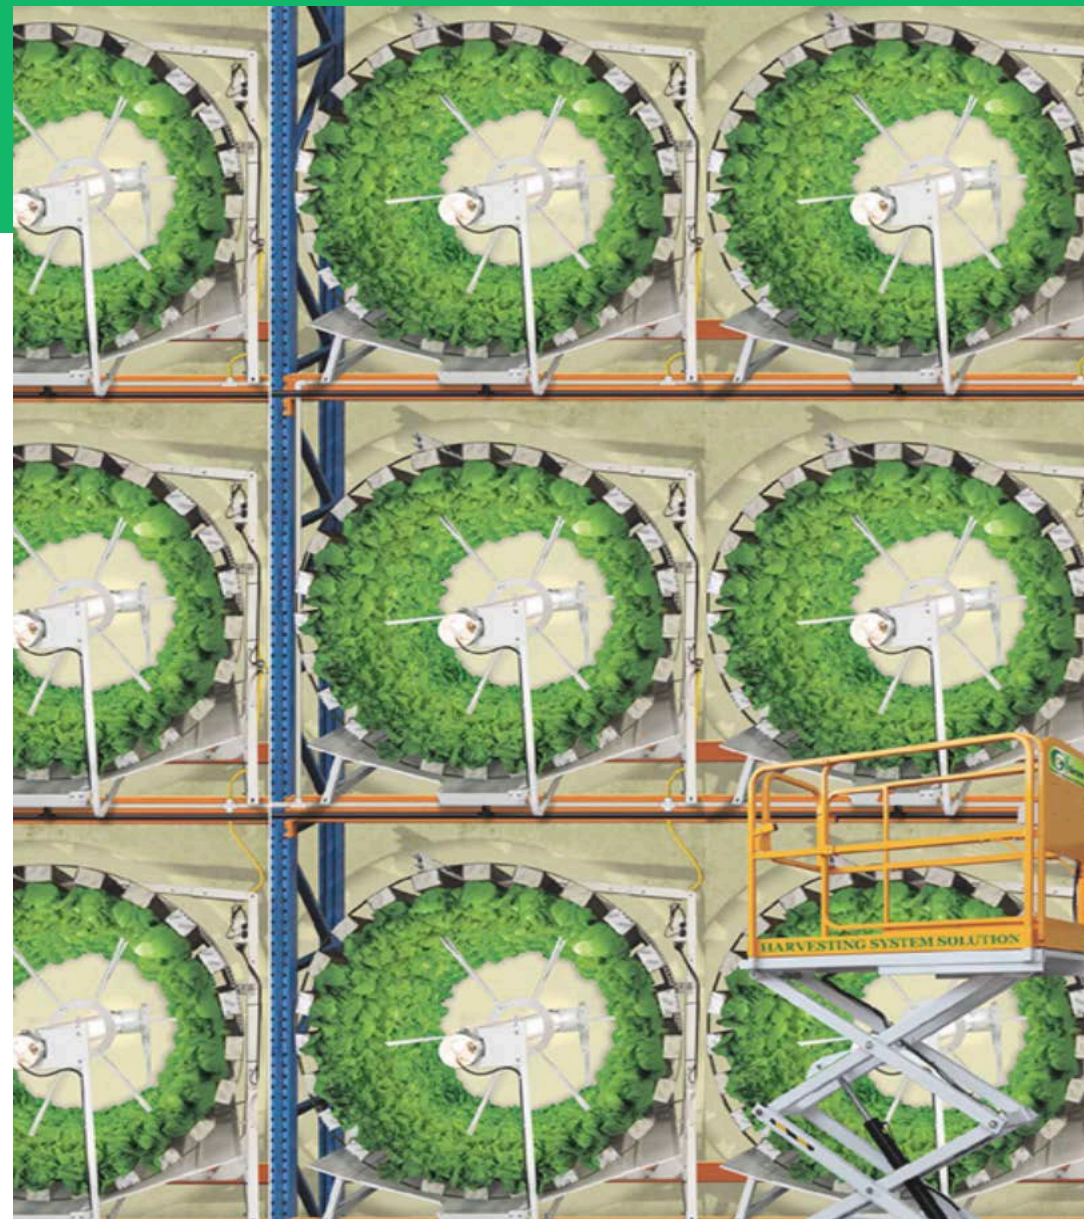

The first rotary garden for certified organic agriculture

The GiGrow is the only rotary injection garden that works with gravity. The efficiency of its patented system makes it possible to cultivate a wide variety of plants such as vegetables, herbs and even flowers indoors, all ensuring a stable income ... summer and winter, no matter the weather!

Its unique design offers an unbeatable rate of return. Profit is possible from the very first year and the investment can be repaid in five years.

GiGrow is not a hydroponic system. It allows a great saving of water and fertilizer thanks to its patented injection system, as well as significant energy and space savings. In addition, all the elements necessary for cultivation are recyclable or bio-degradable!

Liquid Balance

Living organic drink, fermented tea, brewed in Montreal. Y Kombucha is a natural, preservative-free product certified by Eco-Cert Canada.

Y Kombucha is also the first official supplier of Kombucha at the Bell Center and the first to be recognized by the Canadian Digestive Health Foundation (Gastroenterologist Association of Canada Foundation). ion

Eureka 93

Ingenuity. From the ground up.

Transforming health, wellness and beauty through research, innovation and integrity

Eureka93 is one of the largest hemp cultivation and CBD extraction operations in North America. The company is dedicated to producing the highest quality CBD products for our customers.

With unique capabilities and resources, Eureka93 is investing in a new future for this transformational product. They are a premium producer, with innovation and research at our core.

GREEN CBD

Cannabis of medicinal quality

Green CBD uses exceptional extraction methods.

The firm has access to two proprietary extraction and isolation methods to produce cannabinoid isolates: (1) membrane technology and (2) solvent-based technology.
